Professional Summary

A passionate Computer Systems Engineering student at Sukkur IBA University originally from Tharparkar. Experienced in web development, embedded systems, and C++ programming. Adept at creating automation projects, logical problem-solving, and real-world application of technical skills.

Education

BS in Computer Systems Engineering

Sukkur IBA University

Expected Graduation: 2027

Projects

- Arduino Based Home Automation System

- Banking System in C++ (file handling)

- Student Grading System in C++

- Salary Management System in C++

Skills

- HTML, CSS, JavaScript

- C++, File Handling

- Arduino with DHT11, Relay Modules, LCD

- App Inventor for Android Automation

- Git & GitHub, Version Control

- Problem Solving & Logic Building

Certificates

- Simplilearn - Introduction to C++

- Alison - Intermediate Concepts of C++

- Alison - Prompt Engineering

- HP Life - AI for Everyone

- HEC Coursera - Arduino Advanced Concepts

- GeeksforGeeks - C++ Programming Course

- Aspire Leaders Program - Module 1 Badge

- Aspire Leaders Program - Module 2 Badge

- Aspire Leaders Program - Alumni Badge

Achievements

- Successfully completed real-world automation and software projects.

- Attended a physical hands-on Arduino workshop/webinar.
